OSU Wexner Medical Center, 452 West 10th Avenue, Columbus, OH 43210**

Light meal provided and a parking pass for the attached Safe Auto garage
(visit www.medicalcenter.osu.edu for directions)

Dr. Muhammad "Rizwan" Afzal, MD, FACC is an electrophysiologist and Clinical Assistant Professor of Internal Medicine at the Ohio State University Wexner Medical Center. Dr. Afzal earned his medical degree from King Edward Medical University in Pakistan and completed a residency in internal medicine at Good Samaritan Hospital in Cincinnati. He completed Clinical Cardiology fellowship at the University of Kansas Medical Center, Kansas City, and a Clinical Electrophysiology fellowship at the Ohio State University Wexner Medical Center. He completed basic and clinical research fellowships at the University of Cincinnati and the University of Kansas.

Dr. Afzal specializes in the management for various types of heart rhythm disorders such as atrial fibrillation (AFIB) and ventricular arrhythmias. He performs various procedures such as catheter ablations and device implantations for prevention and treatment of various heart rhythm conditions.

The Ohio State University Wexner Medical Center is home to the largest electrophysiology program in Ohio. Our subspecialists offer expertise in the treatment of heart rhythm disturbances and most notably, in AFIB ablation. We will review the etiology and pathology behind AFIB, new developments in the treatment and a stepwise approach to care for a loved one who has AFIB. Cases will be reviewed to highlight various steps involved in the care of AFIB.

RSVP to Jeff Davidson at (614) 580-1561 or jadavidson@columbus.rr.com
