

Heart Education Meetings

RSVP to join us and **Dr. Cindy Baker** speaking on:

"Saving Lives in the Cath Lab"
New technologies and new procedures are saving
lives of patients coming from the ER and preventing
the need for invasive surgeries in many cases!

Thursday, June 13, 2019

**6:00 pm - 8:00 pm in the Ross Heart Hospital Auditorium,
OSU Wexner Medical Center, 452 West 10th Avenue, Columbus, OH 43210**

Light meal provided and a parking pass for the attached Safe Auto garage
(visit www.medicalcenter.osu.edu for directions)

Dr. Cindy Baker, MD, FACC is an interventional cardiologist and Clinical Assistant Professor of Internal Medicine at Ohio State University Wexner Medical Center. Dr. Baker earned her medical degree from the Medical College of South Carolina and completed a residency in internal medicine at Emory University Hospital. She completed clinical fellowships in cardiovascular medicine and interventional cardiology at the OSUWMC.

Dr. Baker specializes in treating cardiovascular disease through interventional surgeries such as complex coronary interventions. She also treats peripheral arterial and venous disease with endovascular techniques.

The cardiac catheterization laboratory is a procedure area that cares for some of the most critical patients presenting to the Ross Heart Hospital. For those with life threatening conditions such as acute myocardial infarction, cardiac arrest and acute pulmonary embolism, our lab is typically their first stop for life saving procedures.

We review the etiology and pathology behind these conditions and discuss current treatment options. New technology and algorithms for treating these critically ill patients will be discussed. Cases will be reviewed to highlight these life saving techniques.

RSVP to Jeff Davidson at (614) 580-1561 or jadavidson@columbus.rr.com
Visit our website at: www.healingheartscentralohio.org

Our 300 member group seeks to inspire, comfort and support heart patients and their families and people at risk for heart disease throughout the central Ohio community. We share heart success stories, strive to stay healthy long-term, and host educational meetings each month!
